

KONA Micro IoT Gateway

The KONA Micro IoT Gateway is a LoRaWAN® Gateway designed for enterprise and lightweight Smart Building and industrial applications that require “Always On” connectivity. Simple to configure and cost effective, it is an ideal hub for deployment of enterprise-level applications in areas where LoRaWAN® coverage is not yet readily available or for private networks where the operator requires unfettered access to the gateways regardless of their deployment location.

The KONA Micro is ideal for Smart Building, Smart Home, and Warehousing applications.

Applications:

Smart Building

- » Temperature and Humidity Monitoring
- » Room Occupancy
- » Motion Detection
- » Smart Maintenance
- » Indoor Air Quality Monitoring

Smart Home

- » Heating and Lighting Control
- » Safety and Security
- » Smart Locks
- » Energy and Water Meters
- » Gardening

Warehousing

- » Inventory Management
- » Asset Tracking (Indoor/Outdoor)
- » Process Automation
- » Machine Usage Monitoring (Preventative Maintenance)
- » M2M LoRaWAN® Retrofit
